2. Claims 1-36 are allowed.

3. The following is an examiner's statement of reasons for allowance: the claims recite methods for configuring a remote control device and a computer readable media for configuring a remote control device that searches for sequence subsets from a sequence of activated keys for presentation to the use and for assignment to a particular key. Such a combination is not taught or suggested by the prior art of record. Macros are used to program keys, but there is no searching for subsets of sequences.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
